

# SUBJECT PATHWAYS

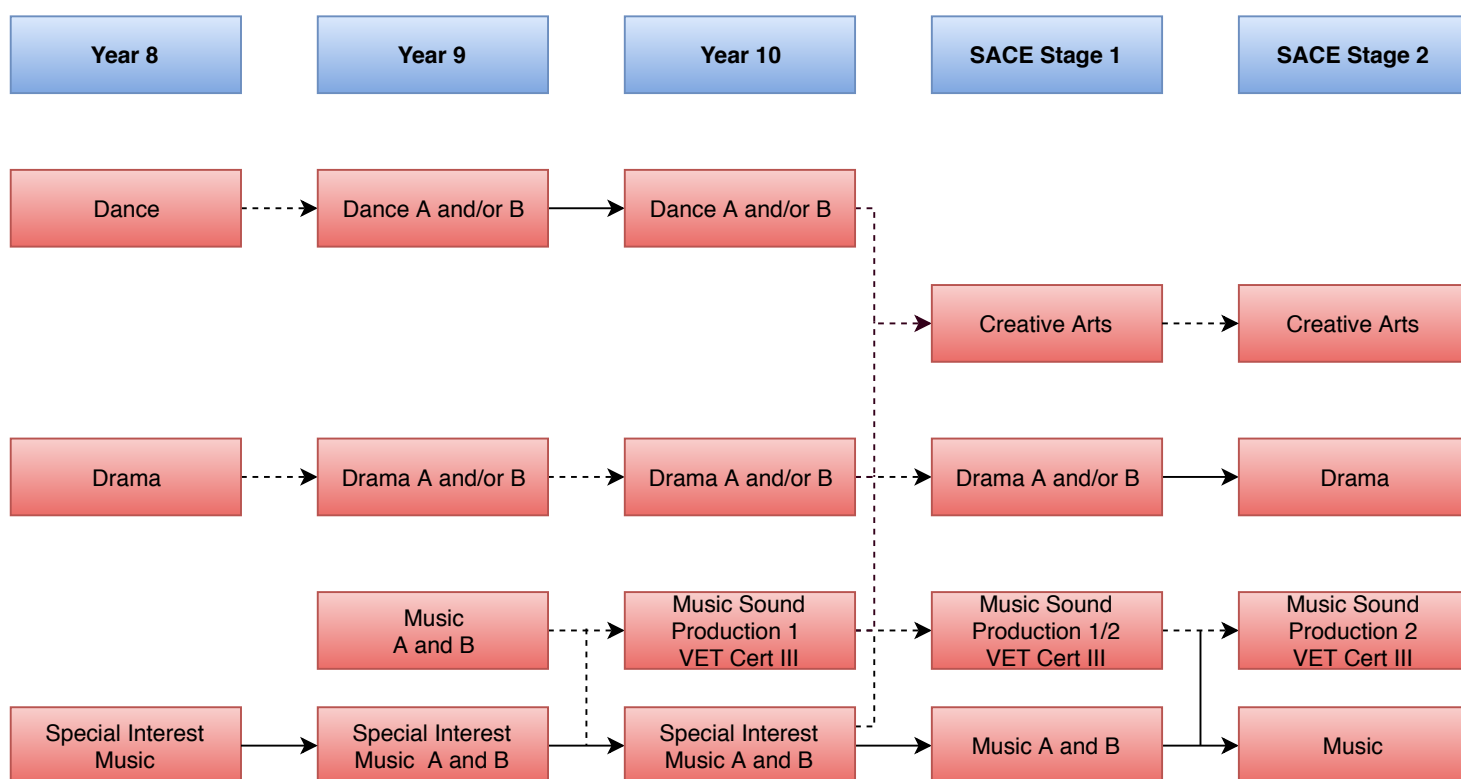

The following diagrams indicate potential subject pathway in each learning area.

A number of subjects have pre-requisites in place, to ensure students have the foundational skills and abilities for success in the subject. Details of subject pre-requisites can be found in the *Subject Offerings* sections of the relevant *2019 Curriculum Prospectus*. Subject teachers make recommendations for future study for students in these subjects. **Please note these pre-requisites carefully in making subject choices.**

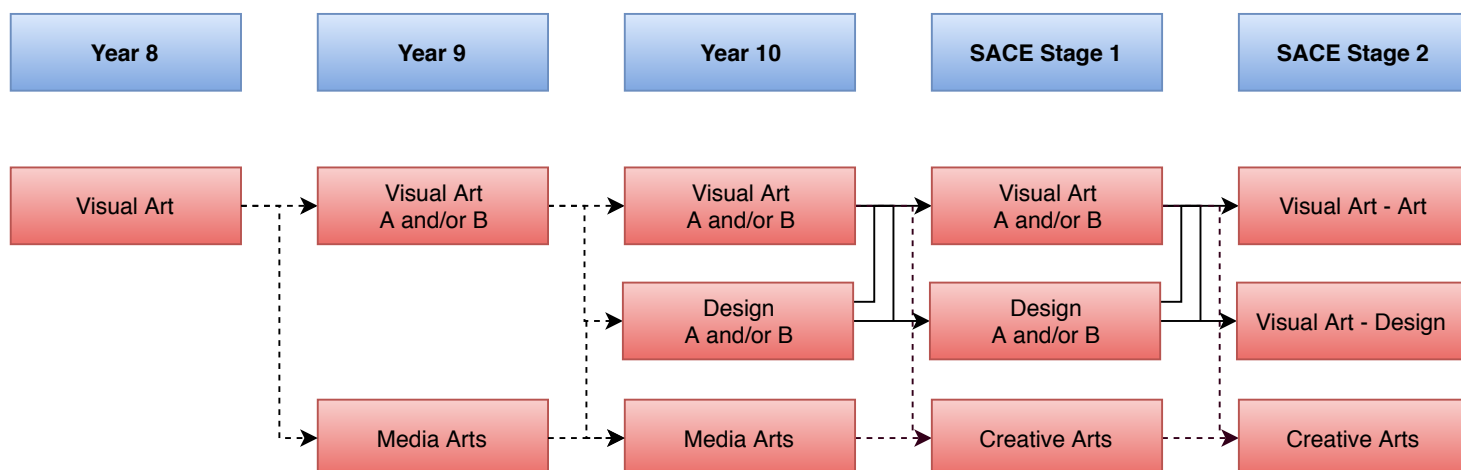

*Please Note: We endeavor to meet the individual needs of all students, however not all combinations of subjects are possible. It may be necessary to undertake some recounselling at a later date.*
